PROFESSIONAL SUMMARY

Frontend Developer with 5+ years of software development experience, including 3.5+ years specializing in React.js, Next.js, and TypeScript. Delivered enterprise platforms for government and private-sector clients in the UAE and Middle East, with bilingual Arabic/English (RTL) interfaces, REST API integration, secure JWT/OAuth authentication, and role-based access control. Built the user interface for an 11-role government document platform with iris, fingerprint, and facial recognition, used by 500+ people daily.

TECHNICAL SKILLS

Frontend:	React.js, Next.js (SSR/SSG), TypeScript, JavaScript (ES6+), HTML5, CSS3, React Native, Micro Frontends (Module Federation)
UI Libraries:	Tailwind CSS, shadcn/ui, Material-UI, Ant Design, Mantine
State and Data:	Zustand, Redux, Context API, TanStack Query, React Router, Axios, RESTful APIs, WebSockets
Security:	JWT Authentication, OAuth 2.0, Role-Based Access Control (RBAC), Biometric SDK Integration
Testing:	Playwright, End-to-End Testing, Cross-Browser Testing
Backend:	Node.js, Python, Django, PostgreSQL, MongoDB, MySQL, Firebase, Supabase
DevOps and Tools:	Git, GitHub, GitHub Actions, CI/CD Pipelines, Docker, AWS (EC2), Webpack
UI/UX:	Arabic/English RTL Layouts, Responsive Design, WCAG/ARIA Accessibility, Semantic HTML, SEO
AI Integration:	OpenAI API, MediaPipe FaceMesh

PROFESSIONAL EXPERIENCE

React Developer

Sep 2022 – Apr 2026

Floges Software Solutions, India | Clients in UAE and Middle East (Government and Private Sector)

- Architected RBAC for government document management platforms with up to 11 user roles, biometric verification (iris, fingerprint, facial recognition), and multi-level approval workflows, serving 500+ daily users.
- Built bilingual Arabic/English interfaces with full RTL/LTR layout switching for UAE government and enterprise clients.
- Created reusable component libraries with React.js and TypeScript (Material-UI, Tailwind CSS, shadcn/ui) shared across 5+ client projects, speeding up UI delivery and keeping design consistent.
- Implemented Micro Frontend architecture with Webpack Module Federation, splitting monolithic applications into independently deployable modules so teams could develop and release in parallel.
- Optimized page load performance using code splitting, lazy loading, memoization, and Webpack tuning, reducing initial bundle size and improving Core Web Vitals.
- Integrated authentication APIs using JWT, OAuth 2.0, and Supabase, handling login flows, protected routes, and role-based UI access.
- Connected REST APIs with TanStack Query caching, optimistic UI updates, and WebSocket features for live notifications, chat, and collaborative workflows.
- Set up CI/CD pipelines with GitHub Actions to automate testing and deployment.

Python Developer

Mar 2021 – Aug 2022

Infoux Technologies, India

- Developed and maintained RESTful APIs with Python and Django for client web applications.
- Designed and optimized MySQL schemas and queries, improving query response times and data integrity.
- Shipped frontend features with React.js, working across the full stack to speed up feature delivery.

PROJECTS

IDMS - Government Document Management System

React.js, TypeScript, Zustand, Material-UI, Biometric SDKs | Middle East Government Project

- Developed bilingual Arabic/English UI with RTL support for secure document handling and role-based data visibility.
- Integrated iris, fingerprint, and facial recognition SDKs for identity verification.

Sinyar - Access Management System

React.js, TypeScript, Zustand, Material-UI | Abu Dhabi, UAE

- Designed RBAC with 5 user roles for company and employee workflow management with multi-level approvals.
- Built bilingual Arabic/English (RTL) dynamic forms and approval dashboards.

kyna.ai - AI Property Finder (kyna.ai)

Next.js (SSR/SSG), TypeScript, Tailwind CSS, OpenAI API | Dubai, UAE

- Developed an AI-driven property search platform for the Dubai real estate market with an intelligent recommendation engine and SEO-optimized server-side rendering.
- Integrated property listing APIs and a lead management system for channel partners, enabling real-time property matching for agents.

Orbin - Professional Networking Platform (theorbin.com)

Next.js, React Native, TypeScript, WebSockets, TanStack Query

- Built a LinkedIn-style networking platform for web and mobile with consultation booking, real-time messaging, and push notifications.
- Reduced redundant API calls with TanStack Query caching and WebSocket-based notifications, improving app responsiveness.

Virtual Optical Store - AI-Powered Eyewear E-Commerce

React.js, Node.js, TypeScript, MediaPipe FaceMesh

- Developed an e-commerce platform with Virtual Try-On using MediaPipe FaceMesh for real-time glasses fitting.
- Implemented role-based access for 4 user types (Admin, Optician, Salesman, Customer) with a responsive cross-device UI.

EDUCATION AND CERTIFICATIONS

Bachelor of Computer Applications (BCA)	2017 – 2020
MG University, Kerala, India	
Certified Python Developer	2021
Nordic Academy
